Bengaluru, Karnataka - 560068, India

## OBJECTIVE

I thrive on solving real-world problems, challenging norms, and delivering practical solutions. I'm driven by results, not rigid rules, and motivated to build impactful, efficient systems that make a difference.

## SKILLS

- **Programming Languages:** Java SE, Java EE, JavaScript, C++
- **Frontend:** HTML, CSS, React JS
- **Backend:** Node.js, Express.js, Spring Boot, Microservices
- **Database Systems:** MySQL, MongoDB, NeonDB, Supabase
- **Cloud Platforms & Deployment:** Google Cloud Platform (GCP), Vercel, Supabase, NeonDB
- **API & Documentation:** OpenAPI (Swagger), Postman
- **DevOps & CI/CD:** Docker (basic), GitHub Actions
- **Tools:** Git, GitHub, VS Code, IntelliJ IDEA

## EXPERIENCE

- **Yahweh Software Solution [⊕]** — *May 2025 - Present*
  *Frontend React.js Intern* — Bengaluru, Karnataka
  - Working on the company's software platform edudibon.com, connecting React.js frontend with backend APIs
  - Adding new features to the Performance module, including chat functionalities and role-based access for admin, teacher, and student users
  - Collaborating with backend developers to ensure smooth integration and improve overall user experience

- **Besant Technologies [⊕]** — *May 2024 - April 2025*
  *Java Full-Stack Developer Trainee* — Bengaluru, Karnataka
  - Developed and deployed a project[⬤] using HTML, CSS, and JavaScript
  - Designed and implemented a database schema using SQL
  - Collaborated with a team to resolve bugs and improve code quality

- **EduSkills [⊕]** — *July 2022 - Sep 2022*
  *AI-ML Virtual Internship* — Remote
  - Completed an intensive course on cloud computing and AWS fundamentals
  - Developed skills in designing and deploying cloud-based systems on AWS
  - Gained knowledge of cloud concepts, security, architecture, and pricing models

## EDUCATION

- **Indira Gandhi Institute Of Technology** — *Nov 2021 - July 2023*
  *M.C.A [Master In Computer Application]* — Sarang, Odisha
  - Grade: 80%

- **Buxi Jagabandhu Bidyadhar Autonomous College** — *Sep 2021*
  *B.Sc ITM [Information Technology Management]* — Bhubaneswar, Odisha
  - Grade: 68.22%

## PROJECTS

- **Omnify Blog: [A Full-Stack Blogging Platform]** *May 2025*
  *Tools: [React.js, Spring Boot, JWT, PostgreSQL]* [⛓]
  - Full-Stack Platform: Built a blogging system with React.js frontend and Spring Boot backend.
  - Authentication: Implemented secure user login and signup with JWT-based authentication.
  - Blog Management: Supports blog creation, editing, deletion, and public viewing with pagination.

- **Weatherv1.0: [A Simple Tool for Real-Time Weather Updates]** *Oct 2024*
  *Tools: [React.js, Weather API]* [⛓]
  - Real-Time Weather Updates: Fetches current weather data for any city using a weather API.
  - Detailed Information: Displays temperature, humidity, and weather conditions at a glance.
  - City Search Capability: Allows users to quickly search and find weather info by city name.

- **Expense Tracker: [A Simple Tool for Managing Daily Expenses]** *Mar 2024*
  *Tools: [HTML, CSS, JavaScript]* [⛓]
  - Simple Interface: Easy-to-use design for quick expense input and navigation.
  - Dynamic Updates: Add, edit, and delete expenses in real time.
  - Local Storage: Data persists in the browser across sessions.

- **Digital Library: [Streamlined Note Sharing for Teachers and Students]** *May 2023*
  *Tools: [Node.js, MongoDB, Express]* [⛓]
  - Teacher Controls: Teachers can upload and delete notes.
  - Student Access: Students can view, but not modify, uploaded notes.
  - Backend with Node.js: Node.js handles server-side functionality, managing file uploads and access control.

## CERTIFICATIONS

- **Besant Technologies:** Java Full Stack *Sep 2024*
- **udemy:** Learn JAVA Programming - Beginner to Master *May 2024*
- **AWS Academy Graduate:** AWS Academy Cloud Foundations *Sep 2022*
- **AI-ML Virtual Internship** *Sep 2022*
- **Mo Startup Bootcamp** *Sep 2022*

## ADDITIONAL INFORMATION

**Languages:** English (Proficient), Hindi (Proficient), Odia (Proficient)
